Registered Nurse Castro Valley CA

Description

This is for a Skilled Nursing Facility in Castro, Valley CA area with possible COVID patients.

Skilled Nursing Facility experience is needed.

Responsibilities

The basic function of this position is to assess, plan, implement, and evaluate all nursing activities for a specific area of a nursing unit in conjunction with the head nurse or charge nurse of the unit.

- Accepts responsibilities delegated by the head nurse or team leader. Assesses, plans, implements, and evaluates the nursing care provided in the area assigned.
- Exhibits leadership in interpreting and applying the philosophy and objectives of nursing service at the facility assigned, in optimizing the skills of staff assigned to his/her responsibility, and in making team decisions.
- In a primary care nursing setting, is responsible for total patient care, including medications, orders, assessments, treatments, and individual patient care plan.
- Maintains accurate patient clinical records, executes physicians' orders, keeps accurate problem-oriented nurse's notes which reflect conditions, response to treatment, progress, and assessment in accordance with accepted nursing standards.
- Assists the physician with procedures and treatments, administers treatments including sterile procedures.
- Participates in team conferences.
- Guides personnel in evaluating patient needs and conditions.
- Performs patient care within the principles of nursing, reporting pertinent observations, complaints, or conditions to the team leader, head nurse, or physician.
- Assists head nurse or charge nurse in personnel work evaluation.
- Practices cost effective use of equipment and supplies.
- Attends and supports in-service education programs, seminars, and nursing education.
- Participates in, initiates, or coordinates BCLS when necessary.
